

CRITERIA FILTER

The Decision to be Made: _____

Initial Thoughts and Notes:				
<u>Notes for Minimum:</u>	<u>Minimum:</u> What the decision <u>must</u> have to be successful	<u>Criteria:</u> The factors to consider in making the decision	<u>Ideal:</u> The best result that you can expect (within reason)	<u>Notes for Ideal:</u>

Instructions: In the Criteria column list all of the factors you need to consider in making the decision. In the Minimum column list for each criteria the minimum acceptable to you. For example, if the decision is “What career should I choose” and money is a factor, in the Minimum column next to it you would put the absolute minimum income you must have. In the Ideal column you would state the most income you could possibly receive, within reason. List all of the criteria you can think of, adding additional rows as necessary.
